Ms. Coffman,

For everything you've contributed to Auburndale in the last five years. Being student advisor, helping with the newspaper, making sure the yearbook gets out, school elections, school spirit and being a great teacher. The yearbook staff of 75-76 would like to express our gratitude by dedicating this yearbook to you, because without your help it wouldn't have been possible. Thank you for all your help and understanding.

Yearbook Staff

We all need you,
As the flowers need the sun,
While we are working,
Or just having fun. . .

In good times or in bad,
You are always there,
No matter what the case is,
You always seem to care.

For the last time gimme back my lizard

Ah now the foods not that bad

Ra Ra Ree Kick 'em in the knee Ra Ra Ras Kick him
in the other knee

Hey Mr. Brew are you shopping!!

The schools best dressed

The way the wind is blowing my wig is liable to blow off

Hurry Jim the bells gonna ring

Today were gonna study the internal organs of a duck billed Platypus

Boy its hot today, what a heat wave

Hey ball come back down here

Terri you can't be in every picture.

COUNSELORS

OF
'76'

Mrs. Little

My job is a Scheduling Counselor. I change students' schedules to agree with the students, teachers, and parents.

Ms. Coffman

I teach and I'm student counselor. I work with Mrs. Little in scheduling students, in working with them and the school.

Mrs. Cline

I, like Mr. Patterson, am a Personal Counselor. I am here to help students in any way I can to be the best kind of person they want to be.

Mrs. Picconi

I work as a Career and Education Counselor. I help students find the Career that they like and is reasonable for a decision to be made in High School.

Mr. Patterson

I'm a Personal Counselor. I talk with students to help them with their relationship with their friends, teachers or families.

CHEERLEADERS

This year was a very busy one for our cheerleaders. It began with a weeklong camp at Cal Poly during the summer where they earned four ribbons. The girls are very proud of all the teams they cheered for. They would like to thank Mrs. Riles for all the time, help, and support she has given them through the year, and also thanks to the Pop Club and student body of Auburndale.

A VISION OF HOPE.

9TH GRADE WILLS

DEBBIE ADKINS leaves to the 7th and 8th graders all the teachers to suffer with, like I did...SHARI ARDUINI leaves behind her P.E. Clothes that haven't been washed in 3 years... CINDY ARMSTRONG leaves to Bobby Cossey her collection of locker combinations, her rubber bands and her gym socks which have never been washed in 3 years... DEBBIE AVALOS leaves all her gum that she has chewed and stuck under her desk to the janitor; to the P.E. room she leaves her initials that she carved on the wall, to Mr. Christy she leaves all her referrals and the memories in his office... STEVE BAILEY leaves his dirty, sweaty, torn up and faded P.E. clothes that he has worn for the last 3 years to his friends in 7th grade... BARBARA BRAVO she leaves to you 8th graders the best history teacher in school Mrs. Cotnolr...SARA BARRAZA leaves behind to all 7th and 8th graders the most fun person to have around you Mr.Christy... VALERIE BECK leaves her ability to be quiet in class to David Baker who will be here next year... KELLY BROWN one of the 75-76 cheerleaders leaves Mrs. Riles the long awaited patience to keep our squad together this year... MONICA BRUCE leaves behind to Mrs. Hill, Jeanette Clark... KELLI CLUCKEY leaves behind her green and gold hair ribbons to Mr. Swank for further use... KIM COONIS leaves all the guys who never asked her out to Felica Manietta... LORI CRUTCHFIELD leaves all her fun she had at school dances to the teachers who had to chaperone them... DIANA DE LA CRUZ leaves to Mr. Williams all her love and affection and last but not least my best wishes to Mr. Atkinson... ANDY DE MENT leaves all his great football skills to the coach of 76-77 I also leave my brain to Mr. McGraw... TONY DERING leaves to all his friends his torn up folder of Jaws... MICHAEL DEVENY leaves behind the food fights at lunch time... RICKY DEVER leaves his beloved tuba to Alan Troxel and hope he will be as he was in band... GARY DONALDSON leaves behind his torn-up basketball pants to Coach Robles, maybe he will sew them up for the next person who wears 'em... CHERYL DUNN leaves all the things on the walls in the bathrooms for the new kids to read... TOM DYE leaves his half-burned PeeChee with Mrs. Hill's picture and autograph... KENNY GERRY leaves his Cross-Country spirit and running to the school and Mr. Regus... RENEE GORDON leaves behind sympathy to Auburndale students to come... MICHELE HAMM leaves all the things on the bathroom walls to educate Schelle Wood... JOHN HEGELMEYER leaves behind his old shoes that ran alot without ever being washed... JEFF HENSLEY leaves all his football skills to his brother Tom... DEBBIE HICKMAN leaves her smile to Mr. Landgraf so he won't ever have a saggy chin... SHERRY HINKLEY leaves her holy tennis shoes to Miss Humphrey... JUDY HORATINOVICH leaves in memory for the teachers at Auburndale of anyone who can't pronounce my last name. KEEP TRYING... JESSICA HOWLETT leaves to Mr. Christy all my referrals I never turned in ... DAVID JENKINS leaves to the 7th and 8th grade boys his very much loved P.E. sneakers... KRIS KELLER leaves behind to Mrs. Riles more patience for the next years cheerleaders because we really used hers up... ROD KESTERSON leaves his cast to all of the 76 football team and coaches... BRENDA KUSKOWSKI leaves her desk at the front of Mr. Williams classroom for any unfortunate POLISH 8th grader who gets stuck in his class next year.Beware of his dumb remarks!!! LAURA LUCHTIKER leaves behind all of her torn-up Pee Chees to the new 7th graders... JON MARTIN leaves behind the graffiti on the books and on desks to the students to read and rewrite "the works" ... PATTY MARTIN leaves all the 7th graders good luck with Mr. Christy... GLADYS MARTINEZ leaves to the Chavez twins all the markers they want so they can write on the bathroom walls... DAVID MC INTYRE leaves all his Elton John albums to Ms. Compo... KAREN MENDELL leaves behind all the writing on books and carving on desks to all the lucky people in the years to come who will benefit by such outstanding works... RUBY MORALES he leaves his gum business to Felix Perez he will retire this year because it's a sticky business... MARY JEAN NANEZ leaves the spirit of 76 to all the 7th and 8th graders... DEDIE NICHOLSON just wants to leave... TWEETY PEGG leaves to Jeannette Clark the girls bathroom. The one next to C-18. It is the cleanest bathroom you can get to... JOHN PRICE leaves to his friend George his own personal seat in the cafeteria and his own personal stall in the boys bathroom... JOSIE RAMIREZ leaves all her sluggings and kickings to June Reed... SHERRY ROBINSON leaves behind all of the crummy food to sicken the future students of Auburndale... KELLIE ROHE leaves behind her extra piece of A.B.C. gum which is cleverly hidden under her desk in room C-17... JENNIFER SIMMONS leaves all her empty deodorant cans to the girl's P.E. teachers... ANDREA SMITH leaves behind Auburndale Junior High for anyone who can find the key... ELAINE SOTO leaves her writings on the walls for Rosie to clean... JOE SPECCHIO leaves Miss Compo to poor Elton John with my deepest sympathy ... JAYNE STARK leaves Mr. Thrasher all her dumb questions here for him to answer next year... KATHY SYLVIA leaves her science notes to future students in Mr. Robles's class... KIM TAYLOR leaves her stinky cheerleading socks to the next year's cheerleaders... JULIE TWAMLEY leaves behind Mr. Wallace for Linda Love... GERALDVARELA leaves behind all desks he has written on to the next dude that sits on them... JAMIE VARNER leaves behind to all 7th and 8th graders the bathrooms he so dearly loved in the 9th grade... ELIZABETH VEGA leaves behind the bells on her cheerleading shoes to all the fortunate teachers who put up with them... LAURINE VERDUSCO leaves the sunflower seeds that she has thrown on' the floor for the past 3 years to all her friends... LESA VIEFHAUS leaves all the hair she got cut off to Mr. Swank to make a wig out of... RORY WALSHINGHAM leaves his worldly possessions of a wig to Mr. Swank... KARI WESTOBY leaves to all the 7th graders Mr. Wallace and Oklahoma... RENEE WILLIS leaves all her work in Mr. Williams class to anyone who wants it!!!

SECONDARY YOUTH CONFERENCE

The Secondary Youth Conference was held here at Auburndale, March 20, 1976. Over 700 students from all over Riverside County attended this conference. We talked about school problems and how to solve them. Each school had a panel and everyone participated in the discussion. It was a lot of fun and a big success!!!

ATHLETICS

VARSITY TRACK

ROW 1: Mike Deveny, Mike Melendez, Joe Garcia, Wes Paxton, Darren Stillwell, Jeff Beman, Gordon Overbay, Trent Farin, Ken Gerry, Tom O'Brian; ROW 2: Jamie Varner, Joe Marquez, Joe Fairchild, Layne Jagger, Gerald Varela, Eddie Murillo, Ray Esparza, Jim Marquez, John Hegelmayer, David Armstrong, Steve Loomis, Rich Fortez; ROW 3: Gordon Palmer, Phil Shea, Duane Johnson, Dan Quick, Andy DeMent, Jim Potter, Robert Stephenson, Brian Henniger

While the team as a whole had a disappointing season, this year's track season cannot be considered a failure. Mike Melendez set both the school and District records in both the 800 and the mile. Jeff Beman broke the longest standing record in Auburndale's track history by Pole Vaulting 10 feet. Dan Quick also became a dual record holder by breaking the 120 LH and the 70 HH records. The season may have been a tough one in terms of District standards, but it was an outstanding season for individual accomplishments.

STANDINGS

This year's basketball team was very successful. We ended up with a 9-3 league record and a 11-4 overall record. It was a real pleasure working with the boys, on the basketball team. They worked hard and the end result showed it, #1!

50 Best of luck to all the players in everything they do.

CROSS COUNTRY

The Cross Country Team brought Auburndale two achievements this fall and District Championship for an undefeated season. Seven members broke last year's course record and Mike Melendez finished EVERY meet first for an undefeated season. The team finished second in the Mt. Sac, Invitational tournament against other schools and won the District Meet. Congratulations to everyone on the team for putting forth such an effort. It really paid off!

We ended up the season with a 2-3-1 record. It was a real pleasure working with the football team this year, even though we did not end up in 1st place. All the players should be proud of our season, and I wish all of them the best of luck in everything they do.

Thanks,
Coach Robles

SOFTBALL

"... I'm STILL waiting."

Concentration . . .

The 1975-76 girls softball team showed good sportsmanship and spirit as they participated in our month long season playing against Raney, Norco, and Corona Junior High Schools. Our team was large this year, with 30 girls actively participating. Their enthusiasm and willingness to commit themselves to the year of daily practices and twice weekly games resulted in our second place tie standing in the league. My thanks to all the girls who helped make this softball season so memorable.

THOSE WERE THE DAYS

AUBURNDALE JUNIOR HIGH SCHOOL

Karen Pylman will always be a special person to us. She began at Auburndale when it opened seven years ago as a homemaking teacher and since then became the student advisor. We appreciate her many efforts and we wish her the best of luck at Norco Jr. High School. She'll always have a special place here at Auburndale.

SPIRITED SEASONS

In my hands a year I hold,
though another year has passed by me.
But not without memories so bold,
and in this book relived they'll be.

Each time, each year that I look back,
though they aren't near, my friends I'll see.
Those memories I'll never lack,
for I'll always have pictures of you and me.

THE FIRST 200 YEARS

A knowledge of American history is an invitation to experience the accomplishment, drama, tragedy and hope of an infant nation struggling to grow up. Sturdy, determined pioneers hacked away at the edges of a raw continent and, with blunders and achievements alike, modeled a country with a spirited nature and a united commitment to individual liberty for every one of its citizens. Americans, great and not so great, have given us a heritage to carry on and improve upon. Farmers and soldiers, industrialists and merchants, dreamers and leaders, are all there in two centuries of progress.

But the maturing isn't finished. You'll find the boundaries of growth as endless today as when our forefathers first envisioned them. You can seek out your own destiny with the wisdom and judgement which comes with re-creation of the past. Your knowledge, dreams and industry will carry on through many more centuries of living history.

IN CONGRESS, JULY 4, 1776.

The unanimous Declaration of the thirteen united States of America.

When in the hours of human events, it becomes necessary for one people to dissolve the political bonds which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation. We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.

that among these are life, liberty and the pursuit of Happiness — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its basis on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed,

Government, laying its feet
and organizing its flowers in such form, as to them shall seem most likely to effect their safety and happiness. "I imagine, however,"
will dictate that Government being

I have been waiting in attention to our British brethren. We have warned them from time to time of attempts by their agitators to assume an unwelcome position in our country. We have also warned them of the consequences of such attempts. We have appealed to their native justice and magnanimity, and we have begged them to discover their infatuations, which would inevitably intrude on our liberties and correspondence. They too have been deaf to the voice of justice and of conciliation.

We, therefore, do solemnly
 swear, as upon the oaths, which demand our separation, and hold them as we hold the rest proclaimed; Everies in this, in their Friends —
 representatives of the united States of America, in General Congress assembled, appearing to the Supreme Judge of the world for the ratification of our
 constitution, of the good Book, And these solemnly publish and declare, That these United States, us, and of Right ought to be Free and Independent

States, that they are the
 real States, they have full Power to buy Men, send Men, combat Aliens, establish Commerce, and to do all other Acts and Things which Independent
 States are entitled to do.

And for the purpose of the Declaration, with a firm reliance on the protection of divine Providence, we mutually pledge to each other our lives, our fortunes

"Everything that is right or reasonable pleads for separation. The blood of the slain, the weeping voice of nature cries, 'tis time to part'." — *Thomas Paine*.

CHAPTERS OF AMERICAN HISTORY

The Stamp Act of 1765 was an attempt by England to tax items that were wholly American. The colonists reacted in seething resentment which erupted into angry protestations. The first blood of the American Revolution was spilled during one such incident at Boston in 1770. Several Americans lost their lives over a snowball thrown at a British sentry.

In the fight to achieve commerce equality, the United States found itself in a naval war over shipping lanes. Fort Mifflin was heroically held during a British naval bombardment, and the stars and stripes still flew after a night of hard fighting. The next morning Francis Scott Key penned the immortal words of what would become the national anthem.

Settlers had to have permanent access to the new lands, so canals and bridges were built to carry stages and wagon trains loaded with machinery destined for settlements in the West. The pioneers foresaw great wealth in the cheap acreage that was available.

Frontiersmen cleared the wilderness, built settlements and drove back the Indians. The Pony Express and the telegraph became primary means of communication.

Agriculture was the wealth of the country. American inventions of the time were often related to working the soil. The McCormick Reaper, mowing machines, textile looms and the cotton gin were instrumental in the settling of new frontiers.

In 1848, James Marshall found gold in the race of a sawmill he was building for John Sutter at Coloma, California. The lust to "get rich quick" was the force behind this biggest and gaudiest gold rush ever.

While "gold rush fever" gripped the country, states were increasingly more divided on the slavery issue. Civil war broke out in the East. This "Brothers War" was bitterly fought and, though the scars remain even today, slavery was abolished.

Cities grew at an alarming pace, often without regard to the limits of safety. The great Chicago fire of 1871 burned the bustling cattle market empire beyond recognition. But the pioneer spirit was not broken. Chicagoans began rebuilding and preparations were underway to celebrate the 100th birthday of the country.

The "Iron Horse," carrying homesteaders, greatly helped settlement of the new country. The first transcontinental railroad connected the country at Promontory Summit, Utah, on May 10, 1869.

Transportation was setting the pattern for the American way of life. The country became a mobile society with electric trolleys, automobiles, farm machinery, and bicycles, all the rage. Along with the accessibility of travel came a new era of nationalism.

A World War called upon the nation's young men to unite and fight. After the war in Europe, the nation pulled itself together and industry flourished once again. A carefree America buried war memories in the new moving pictures, telephones, light bulbs, electric generators, stock market ticker tape machines, phonographs and a wealth of inventions from the fertile minds of its young inventors. Baseball became the national sport and prohibition was law.

Black Thursday, October 24, 1929, saw the American stock market crash to the lowest level in history. Panic set in as the unemployment level skyrocketed. The country was in its worst economic crisis. Slowly, but surely, the wounds of the "crash," the "dust bowl," and poverty healed.

The steel industry geared up for the revival while rumors were whispered in the Roosevelt administration of another impending war. The nation's leaders scoffed, until December 7, 1941. Pearl Harbor!

Industrial production reached a peak during the war years. Upon their return from four years of battle, the veterans forged ahead with an eye on a "better life for everyone." Several moderate recessions in the 50's and 60's reminded cautious citizens of past decades.

Huge strides were being taken in the scientific field. Television became a part of every family's life. National events were household topics — while they happened — thanks to the new medium. Individuals and groups were seen "on the tube" as they advocated new social reform, or justice, or special causes of their own. TV gave individuals and political systems power greater than ever before. Audio-visual journalism had made its impact.

Nearly 100 years of striving for civil liberties were realized when President Lyndon Baines Johnson signed the Civil Rights Act of 1964 into law. The Act outlawed segregation in any form.

The seventies shed light on a new trouble for the nation as it approached its 200th birthday. The world's energy sources and natural resources were being used up faster than they could be replenished. Americans once again waded into a new frontier. The "energy crisis" and "ecology" were prominent words in the language. Ways to save nature from the neglect of mankind and ways of preserving precious fuel without damaging that balance of nature were the objectives of Americans across the country.

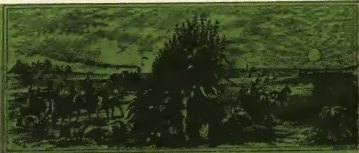

Earth's crises spurred Americans into further pioneering. This time, outer space. American astronauts were the first on the surface of the moon and the U.S. was first to build a "sky-lab" for more scientific study.

America is still learning and growing after a mere 200-year infancy. The original determination of our forefathers was told again in the words of Neil Armstrong as he made the first step on the moon — "a small step for man, but a giant step for mankind."

THE CHANGING NATION

Ownership of land had been just a dream to most of the colonists from feudal England. With the great expanse of cheap land opening up in the West, the dream became reality.

The Louisiana Purchase of 1803 opened the first sizable frontier in the Midwest, but the nation was not ready for it yet. It took a growing market in the East, where land was getting high-priced and scarce, and development of good transportation, to really start the frontier movement.

The Gold Rush caused hordes of settlers to take various routes to the Pacific Coast and its yellow riches. The railroads brought farmers and ranchers, along with the miners, who decided to stop all along the routes and

build their homes. Railroads were instrumental in the quick civilization of the West, bringing people in numbers so large that the resentful Indians were finally pushed back into unwanted and infertile areas.

America became a haven for immigrants from every nation as freedom beckoned them to the teeming cities of the East, the plains, and the rich west coast farmlands.

Sick of the Civil War and with their own lands divided up and lost, many Southerners set out to "begin again" in the virgin territories. "Westering" soon became the national tradition as North and South moved together toward a new life. Americanism was advanced socially, by the hard-working, bare-fisted types who settled the frontiers.

NECESSITY IS THE MOTHER OF ...

COTTON GIN (Model)

Without realizing it, England instilled in the colonists the individual purpose and ingenuity that necessity breeds. With trade goods cut to a minimum, determined young leaders of the time set out to find ways of surviving without support from the Mother Country.

Agricultural methods and machines and labor saving devices were designed by our forefathers. As frontiers opened, Yankee genius had to conquer natural barriers in the wild new country, so suspension bridges were invented and methods of transportation were perfected for the purpose of opening the untamed areas. Later, they sought to section off the land with the revolutionary and controversial invention — barbed wire.

Cooper's 1-horsepower **Tom Thumb** train in 1830 and later, automobiles like the first Model T, and the 4-horsepower airplane; became American modes of travel from city to city and coast to coast.

Americans knew that the fertile lands of this nation would produce unequalled harvests if machines were designed to take over for man. They knew also that trade routes were difficult to travel and manufacturing would have to be done close to home. The cotton gin, textile looms, drill presses and a reaper which could cut six times as much grain as a hand scythe were some of the tools invented.

Protection for themselves and for their young country prodded inventors like Eli Whitney to perfect firearms and others to work on plans for the first submarine. Young inventors like Alexander Graham Bell and Thomas Edison (called the nation's most valuable citizen) visualized machines that would light the country and open up communication with those in the far corners of the nation. The telephone, telegraph, phonograph and the first light bulb were discovered in the late 1800's and early twentieth century. This American way of doing for oneself inspired many to become inventors in their own right. Some sought to save labor and mass-produce for profit while others envisioned not only riches, but excitement and adventure as they discovered ways to defy nature.

Throughout the past 200 years the American mind has been unleashed to take whatever paths necessary to fulfill the needs. In the last half-century, the pace of discovery has been overwhelming and inventions for the taming of the universe lie in the grasp of America while the habit of "finding a way" is ingrained in its people. The seeds of industrial America were sown by these inventors resulting in today's mechanized society.

THEY MADE THEIR MARK

Men and women who helped shape America's history

THOMAS PAINE, a bankrupt Quaker constable, scribe, tutor, teacher, preacher and glazier wrote the most brilliant pamphlet of the American Revolution. His words in *Common Sense* reflected longings and yearnings that have remained part of American culture to this day.

DANIEL WEBSTER chose law as a career and went on to become well-known in the courts and in politics. He was twice Secretary of State with an eye always to the Presidency which eluded him.

DOROTHEA DIX devoted her entire adult life to reform of the existing penal and mental institutions in the mid-1800's. The first state hospital in the nation at Trenton, New Jersey was a direct result of her efforts.

The creator of the Cherokee alphabet, **SEQUOYAH**, was an artist, writer and silversmith. He used a simple 1821 English primer to compose the characters. The famous redwood trees of the Pacific coast bear his name.

Chief Justice **JOHN MARSHALL** established fundamental principles of American constitutional law. He is noted for his preeminent declaration of a Congressional act as unconstitutional. He served through five administrations, from 1801-1835.

Born a slave in Maryland, **FREDERICK DOUGLASS** taught himself to read and write secretly and, at 21, escaped to freedom. He was an ardent abolitionist campaigning successfully for Negro suffrage and civil rights.

"The New Colossus," a sonnet composed by **EMMA LAZARUS** in 1893 is inscribed on a bronze tablet at the base of the Statue of Liberty. She organized relief for Jews and helped fugitives from the Czar's ghettos to establish homes in America.

AMELIA JENKS BLOOMER, best known for a mode of dress she adopted during her campaign for equal rights for women. Though ridiculed until she gave up the costume, the term "bloomer" came to symbolize women's bid for individual freedom.

ABRAHAM LINCOLN epitomized the American dream of a humble young man ascending to the highest office of the land. He was superbly skilled at analyzing complex issues and translating them into meaningful words for the public. He was devoted to the preservation of the Union.

HARRIET BEECHER STOWE wrote *Uncle Tom's Cabin* in an effort to make the whole nation realize the inhumanity of slavery. Her book resulted in one of the most popular and controversial plays on the American stage. The Civil War was kindled by this work.

HORACE GREELEY's admonition to "Go West young man" was a rallying cry of the pioneers of America. He was founder and editor of the *New York Tribune*. He was best known for his philosophy of social reform and his unsuccessful bid for the Presidency in 1872.

JOSEPH PULITZER was the first journalist to reach a truly mass audience. His *New York World* newspaper was the symbol of "yellow journalism" with its sensationalism aimed at the common man.

ANDREW CARNEGIE was a giant in the railroad and steel industries. He believed that it was the duty of a rich man to distribute his wealth during his lifetime. To that end, he established 2800 libraries and many cultural halls throughout America.

A lifetime passion for machinery led **HENRY FORD** to Detroit where, in 1896, he completed his first motor vehicle. The Ford Motor Company manufactured the first "Model T" in 1908.

One of the most elementary symbols of the American way of life was established when **J. EDGAR HOOVER** and his Federal Bureau of Investigation "G-men" set out to clean up the country. His career spanned over 40 years.

The motion picture industry was revolutionized in America and **DAVID MARK DUFFIELD** became known as the "father of the film art" and "king of directors" for his part in this revolution. His camera techniques were the pioneering steps of the industry.

Serving an unprecedented four terms as President of the United States, **FRANKLIN DELANO ROOSEVELT** was a popular leader who made extensive use of fireside radio chats to explain his plans and generate enthusiasm to push them through Congress.

ROBERT FROST's poetry was clear, understated, well-metered and told the stories of rural America. He was a four-time winner of the Pulitzer Prize and has been called America's poet laureate.

A plains, honestly written with tremendous appeal to the masses, who was always in the "thick of things" describes **ELEANOR ROOSEVELT** and her lifetime of politicking beside her husband during his four terms.

THURGOOD MARSHALL is the first Negro to serve as a justice of the Supreme Court. His law career was aimed primarily at civil rights cases.

The crippling poliomyelitis was conquered by **DR. JONAS SALK** in 1953 after more than 25 years of research. Polio was reduced by 95% in less than ten years. SALK's research continues in California at the Salk Institute.

MARTIN LUTHER KING was a leader in the cause of civil rights. He had been a pastor before turning to the cause of segregation. His leadership earned him the Nobel Peace Prize in 1964. He was assassinated by James Earl Ray in 1968.

Lieutenant Colonel **JOHN GLENN** started America's travels to outer space when he became the first American to orbit the earth. He had been an aviator in World War II and a test pilot in peacetime.

GERALD R. FORD, the first President to achieve the office without an election. In 1974, through a series of scandalous events, the Nixon administration toppled and FORD reached the position through approval by Congress.

Imagine buying that acre of land you have spotted for \$1.25! Or, even at the higher price of \$10. Those are the prices offered to our founding fathers to encourage settlement of the wilderness areas of this nation.

A stage wasn't the most comfortable way to go, but you could get from city to city for as little as \$3 — at the amazing pace of six miles per hour.

Compare today's wages with a 12-hour day in the early 1800's. A man earned 50¢ a day. Of course his dollar bought a little more than today's. Butter in 1826 was about 5¢ lb. in the Midwest; eggs, 3¢ doz.; corn 6¢ bu., wheat, 25¢ bu.; and a cow could be bought for \$5.

With travel becoming the American tradition, you could choose train, wagon, horseback or the water. A canal ride, with bed and board included, averaged 3 or 4¢ per mile. And when you reached your destination, you could sit down to a 5, or even 10 course meal for 25¢. (Ladies 20¢, in consideration of appetite.)

Farmers in the early 1800's could own the famous McCormick Reaper for a mere \$100. But the Civil War increased prices as the machine became the first item farmers could buy on time payments for the sum of \$1,500.

A good suit of clothes then might cost \$1.95 and ladies waists (blouses) were marketed for 49¢ to \$3.50 with a whole dress pattern priced at 15¢.

Cookstoves, "quality-satisfaction guaranteed," could cost you \$29.25 at \$4 per month and a dandy heating stove could set you back as much as \$5.73 and up. The first electric refrigerator cost \$900 — which might be enough to make you faint on your 1907 fainting couch that had cost a mere \$7.85.

Your new baby travelled in the height of fashion in a wicker sleeping coach (stroller) for the sum of \$12.04. If you had \$1,500 in 1903 you could show off in one of the first automobiles.

Ah, those were the days. Some of the current prices are reminiscent of those days, but at frontier prices, which were a whole different story. Hardy pioneers had to pay \$2 a pound for sugar, too. And the same for a pound of coffee or pepper. Those items were only 15¢ per pound back in civilized St. Louis. Flour was marked up 100 times for sale to the frontiersmen and during the famous Gold Rush, that precious commodity went for \$400 a barrel.

Wilmington and New-Castle Mail.

THE SUBSCRIBERS respectfully inform the Public, and the Citizens of Wilmington and New-Castle in particular, that they have established a Stage for the purpose of carrying the Mail between the aforesaid places, and also for the conveyance of passengers and baggage. It will leave New-Castle for Wilmington, every morning between 8 and 7 o'clock, and arrive at D. BRINTON'S Tavern, in time for passengers to take the 8 o'clock Stage for Philadelphia.

The Stage will occasionally return to New-Castle in the forenoon, when a sufficient number of passengers offer, and back to Wilmington, and leave there every day for New-Castle after the arrival of the Philadelphia Stage.

Passengers may rest assured, that this establishment will be much safer and more expeditious than any heretofore established between those two Towns; having the best horses, and a careful driver.
